

**2016 ARCTICWEAR &
SNOWMOBILE ACCESSORIES**

We've designed our line of Arcticwear® with loads of features to enhance technical performance, convenience and comfort. Key features that appear throughout the catalog are defined below, making it easy to find the gear that perfectly matches your riding style.

JACKET & COAT STYLES

Our **PREMIUM** jackets have 100 grams of 3M™ Thinsulate™ Platinum Insulation built in and include a 100-gram 3M™ Thinsulate™ Platinum zip-out liner that provides additional warmth without bulk. The liner can also be worn as a stand-alone jacket.

PRO FLEX jackets and coats have 100 grams of 3M™ Thinsulate™ Platinum Insulation built in. Zip in any Flex liner shown on page 20 to adjust your level of warmth.

SHELL FLEX jackets and coats are not insulated. Rather, they have a mesh lining for extra breathability — an important feature for active, aggressive riders. But you can zip in any of the Flex liner systems shown on page 20 to customize your comfort level.

ADVANTAGE™ jackets and coats come with 200 grams of 3M™ Thinsulate™ Platinum Insulation built right into them, so they do not accept Flex liners. You get comfort and warmth at a great price — value that's easy to accept.

FEATURES

TALL JACKETS AND COATS are 2" longer in body length and sleeves.

A convenient **MP3 PLAYER/PHONE POCKET** lets you to add a soundtrack to the ride with tangle-free neck cord system.

High-viz **3M™ SCOTCHLITE™** reflective material increases your visibility from dusk to dawn.

WATERPROOF/BREATHABLE fabric blocks snow, wind and rain, while allowing perspiration to escape. Includes A-Tex™, TriBalance™ and Double Dry™ jackets (see below).

ZIPPERED VENTS allow you to regulate your body temp precisely by letting warm air out.

YKK ZIPPERS are highly reputable and reliable. They complete your garments' performance.

WATERPROOF FULL-LENGTH SIDE ZIPPERS = easy-on / easy-off pants and bibs.

WATERPROOF / WINDPROOF NEOPRENE SLEEVE CUFFS protect your arms while keeping you warm and dry.

Durable, waterproof/breathable outer shell; breathable micro-mesh inner lining.

Three-layer protection, with a tough waterproof breathable outer shell, a waterproof/breathable middle barrier and a micro-mesh inner layer.

Arctic Cat's own waterproof, breathable coated fabric that blocks snow, wind and rain while wicking away perspiration. You stay warm and dry.

3M™ Scotchlite™ Reflective Material is incorporated into the garment for increased visibility.

High-performance 3M™ Thinsulate™ Platinum Insulation uses specially coated fibers for exceptional warmth, breathability, water resistance and luxurious comfort.

GEAR AS DEDICATED AS YOU ARE.

For nearly three decades Arctic Cat® has teamed up with 3M to apply the full force of science and innovation to develop the most effective nonwoven fiber technology. All this work has a single purpose: To deliver warmth without weight and bulk for people who are dedicated to the snowmobiling lifestyle. After more than 25 years of use in Arcticwear, 3M™ Thinsulate™ Insulation is the brand that Arctic Cat customers have come to know and trust.

The secret to 3M™ Thinsulate™ Insulation is the fibers. Its unique microfiber constructions are up to 10 times smaller than the fibers of other synthetic insulations. The smaller the fibers, the better they are at trapping the insulating air that contains your body's radiant heat.

Arctic Cat products using 3M™ Thinsulate™ Insulation are put through a grueling set of tests. 3M engineers test jackets, pants, gloves and boots for heat retention, water vapor transmission, fiber migration and compressibility. 3M even runs garments through washers, dryers and dry-cleaning machines to simulate real-world use.

What that means for you is exceptional comfort and performance in a thin, compressible insulation that is also breathable and water-resistant.

WEAR THE RIDE

When you live to ride, details matter. It's not just about how you look out on the trails, it's about how you and your sled perform. And when you're an Arctic rider, "good enough" is never good enough.

That's why every item displayed in this catalog has been designed, engineered and tested to help you get the most out of every ride, including gear that breathes better, moves better and keeps you warmer than ever before, and accessories that help you go full throttle every day. When you live to be out on your sled, this is the gear that lets you RIDE MORE.™

REPLACEMENT LENSES

CLEAR: Provides maximum light allowance for all weather conditions; great for day or night riding

YELLOW: A vibrant lens tint that brightens terrain while increasing contrast and definition in extremely flat- and low-light conditions

SMOKE: Blocks out glare without changing the overall color perception; great for all-weather use

BLUE: This neutral tinted lens reduces glare in variable light conditions

AMBER: A multipurpose lens tint that filters reflected blue light to provide superior contrast, shadow definition and depth perception in bright, overcast and flat-light conditions

MIRROR: Performance-based lens tint with a multilayer mirror maximizes color definition, increases depth perception and intensifies light

**FOX®
TUCKER HIBBERT
SIGNATURE SERIES**

The Tucker Hibbert Signature Series FLOAT 3 EVOL RC2 Ski Shocks and Rear Track ZERO C2 and ZERO RC2 offer world-class calibration developed by a world-class athlete. Feel the increase in control and stability in any terrain condition.

**FOX FLOAT 3 EVOL RC2
HIBBERT SIGNATURE SERIES**

←NEW

POSITION Front ski shock (pair)
TYPE Trail performance
SPRING Air

6639-836
'14-'16 ZR, '14-'16 XF, '12-'13 F 42-IN.
\$1,795.00 | \$38.09/mo.**

ADJUSTMENTS

- Infinitely adjustable dual air spring
- MAIN air chamber (ride height)
- EVOL air chamber (bottom-out control)
- Wide-range rebound adjustment
- Dual-Speed Compression (DSC) adjustment

FEATURES

- Genuine Kashima Coat
- Samurai Sealing System (SSS)
- EVOL air technology
- Aerospace-grade PTFE-lined spherical bearings
- High-flow velocity-sensitive damping
- Chrome silicone negative spring
- Fully rebuildable and revalveable
- Ultra-lightweight

**HIBBERT SIGNATURE SERIES
TRACK SHOCKS**

←NEW

1.5 ZERO C2 (FRONT ARM)
2.0 ZERO RC2 (REAR ARM)

POSITION Rear track shocks (pair)
TYPE Trail performance
SPRING Lightweight race spring

6639-837
'14-'16 ZR, '12-'13 F (EXCLUDES RR MODELS)
\$1,295.00 | \$27.48/mo.**

ADJUSTMENTS

- Dual-Speed Compression (DSC) adjustment
- Spring preload (front arm)
- Wide-range rebound adjustment (rear arm)

FEATURES

- 6061-T6 Kashima coated aluminum body
- FOX ice scraper technology (FIST)
- Piggyback reservoir

QS3 (3 SETTING QUICK POSITION SWITCH)

Choose from three specifically calibrated ride control settings, to tune in your own personal ride and handling setting. The QS3 supplies a wide range of adjustments, while simply allowing the user to make a change quickly without tools.

FOX FLOAT 3 EVOL

- Wide-range rebound adjustment

FEATURES

- Genuine Kashima Coat
- Samurai Sealing System (SSS)
- EVOL air technology
- Aerospace-grade PTFE-lined spherical bearings
- High-flow velocity-sensitive damping
- Chrome silicone negative spring
- Fully rebuildable and revalveable
- Ultra-lightweight

DUAL SPEED COMPRESSION (DSC)
With DSC, you can adjust the shock's high- and low-speed compression damping by simply turning the external adjusters. DSC allows you to maximize small bump compliance and traction while still having the extra damping required for big hits.

REBOUND DAMPING
Rebound damping controls the rate at which the shock returns after it has been compressed. The proper rebound setting is a personal preference, and changes with rider weight, riding style and conditions.

EVOL AIR CHAMBER
The infinitely adjustable pressure setting in the extra volume (EVOL) air chamber regulates spring rate in the final portion of the stroke and controls the bottom-out characteristics of the shock.

FLOAT 3 FACTORY SERIES TRACK SHOCKS

Take your riding to a world-class level with the lightweight performance and adjustability of the new FLOAT 3 Factory Series Track Shocks. Developed and tuned in collaboration with backcountry experts, these Factory Series shocks will allow you to fine tune the skid to help absorb anything you may encounter on the mountain.

SHOVEL PACK

This low-profile bag offers mid-capacity storage and provides quick access to your shovel | Accepts all BCA shovels shown on page 138

NOTE: When using an avalanche airbag, avalanche experts recommend carrying a shovel in the backpack and a second shovel on the sled.

6639-782
 '12-'15 M; '13-'15 XF; '09-'11 M
\$109.95 | \$2.33/mo.**

TUNNEL STRAP

Mounts securely to tunnel and straps over storage bags | Provides added security when carrying heavy loads or riding in rough terrain

6639-460
 '14-'16 ZR; '12-'16 M, XF; '13 F W/ FLAT TUNNEL
\$29.95 | \$0.64/mo.**

LOW-SPEED COMPRESSION RESISTANCE
 allows precise control of the suspension resistance for ski lift and front-end diving when cornering and braking, rear-end squatting under hard acceleration, riding over whoops at moderate speed, undulations and elevation changes in the terrain.

HIGH-SPEED COMPRESSION FIRMNESS
 allows precise control of the suspension for landing from big jumps, harsh or sudden square-edged impacts, riding at high-speed over whoops, vibration when riding at very high speed or when riding over choppy terrain and snow tracks.

REBOUND EXTENSION SPEED
 controls the speed at which the shock absorber returns to its fully extended position after being compressed from an impact to maintain skis or track on the snow.

THREADED SPRING PRELOAD
 allows fine-tuning of sled ride height to raise or lower the center of gravity and precisely balance the weight distribution across the front and rear sections of the sled without affecting the spring rate.

ACCESSORIES
TRACKS

COBRA™

Cupped lugs for superior handling, acceleration and braking on soft, loose trails | Excellent off-trail performance without sacrificing top speed

RIPSAW II

Lug design combines the best features of Ripsaw and Cobra tracks for excellent all-around performance | Less track noise for quieter operation on hard-packed trails

POWER CLAW™

This lightweight single-ply track sets the standard for deep snow performance | Stagger-set, curved-forward paddle towers won't fold over or take a set | Available in 2.25-in. and 2.6-in. lug heights with 80 or 85 durometer

ICE RIPPER™

Ultimate crossover performance from factory pre-studded Ripsaw trail track | Phenomenal traction from Camoplast's Ice Control Enhancement Technology

HACKSAW™

Crescent lug design with recessed tips and cutting edges provides grip on hard-packed trails | Narrow lug base provides less rolling resistance for maximum top speed

RIPSAW™

Aggressive angled lug profiles for outstanding traction on groomed trails | Rigid lugs provide excellent durability

BACKCOUNTRY X

Snocross-inspired, arched lugs are staggered for outstanding traction in soft snow | Rigid lug support columns for on- and off-trail performance

3-IN. POWER CLAW

Full 3-in. lug height brings maximum control to even the deepest snow | Lightweight single-ply track features stagger-set, curved-forward paddle towers that won't fold over or take a set | 80 durometer hardness rating for rugged performance | Requires 7-tooth driveshaft

All tracks listed feature an "All Open" window configuration with 2-ply construction (unless noted as Single-Ply). Price per month ranges from \$13.37 to \$33.95. *ACT Quiet Tracks are for use on '03 and newer models only. [†]Requires 7 Tooth Drive Shaft. ^{**}To protect tunnel from possible damage, a tunnel protector kit should be installed on models not equipped.

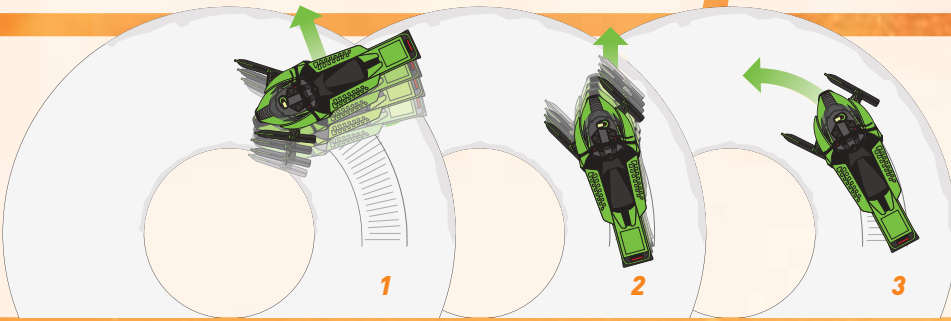

ACCESSORIES

TRACTION & CONTROL

MAXIMIZE STEERING CONTROL

The length of the turning carbide (carbide inserted directly under the steering spindle) is the determining factor on steering control. The longer the turning carbide, the more positive turning becomes. Too few studs with long turning carbides can result in the situation shown in Illustration 1 below.

MAXIMIZE TRACTION CONTROL

The quantity and types of studs inserted through the track can have several effects. If installed improperly, track and/or stud damage can result. If the pushing force from an excessive number of studs exceeds the ability of the steering to control the force, the effect could be like that in Illustration 2. In this case, the studs tend to "push" the skis in a straight line.

- 1 Back end loose. Too much carbide, not enough steering control.
- 2 Front end pushes. Weak steering from worn wearbars, turning carbides too short or overstudding on track.
- 3 Steering control and stud quantity are in balance for proper setup.

TUNE YOUR SLED'S HANDLING TO YOUR RIDING STYLE

Determining the proper traction and control is simple. What's your riding style: Are you a conservative trail rider or a performance trail rider? Look at the chart below. Find the line with the horsepower of your sled. Look under your riding category. Here you will discover the number of studs and the length of the carbide wearbar you should use. This is a baseline guide for stud and wearbar selection. See your dealer for specific model applications.

STUD QUANTITY / INCHES OF TURNING CARBIDE

SLED	TRAIL	PERFORMANCE
50-75 HP	48/4 IN.	48/6 IN.
75-125 HP	102/6 IN.	153/8 IN.
125-150 HP	153/8 IN.	153/10 IN.
150-170 HP	153/8 IN.	153/10 IN.

FOR STUD PLACEMENT, USE ONLY ARCTIC CAT-APPROVED STUD TEMPLATES SHOWN ON PAGE 152.

Arctic Cat traction products are available in package quantities that will give you the best combinations for 121-in., 128-in., 129-in. and 137-in. tracks.

RECOMMENDED STUD LENGTH (IN.)

TRACK LUG HEIGHT	WOODY'S STUD LENGTH	STUD BOY STUD LENGTH
1.000	1.075	1.080
1.250	1.325	1.375
1.352	1.325	1.375
1.375	1.450	1.500
1.500	1.575	1.625
1.600	1.575	1.625

For stud lengths 1.325 in. and longer, we recommend the use of a Big Nut (page 151) or Power Tower Support Nut (page 151).

Cobra 1.352-in. tracks have a standard lug height of 1.25 in. The overall lug height including the extended "towers" is 1.352 in. Because the towers will flex, Cobra 1.352-in. tracks use the same stud length as a 1.25-in. track.

STUD PLACEMENT

DO NOT use studs that are longer than recommended | DO NOT place studs in line with the heat exchanger or tunnel protector strip, and factor in the amount of suspension travel to avoid tunnel damage | Studs MUST NOT extend more than 3/8-in. beyond the rubber track lugs | Verify adequate clearance between the track, tunnel and heat exchanger to avoid serious damage | Confirm that your machine has adequate tunnel protection before installing studs | Use only Arctic Cat-approved Stud Templates shown on page 152 | The length of carbide and number of studs must coordinate to result in balanced handling and proper control

CAUTION

To protect the tunnel from possible damage from the studs, it is recommended that a Tunnel Protector Kit be installed on those models not so equipped | A Short Snowflap is required when installing studs on '07-'09 F Series; '09 Z1, Z1 Turbo; '09-'11 Crossfire and CFR | See your dealer for additional information

SINGLE RUNNER WEARBARS (PAIR)

SINGLE RUNNER

Ideal on ice and hardpack, but works well anywhere | May provide a noted speed increase compared with a dual or Shaper wearbar | Sold in pairs

HARDWELD WEARBAR
3639-309 7/16-in. diameter round host bar
\$32.95 | \$0.70/mo.**

1/2-IN. DIAMETER ROUND HOST BAR
3639-310 4-in. carbide with hardweld
\$64.95 | \$1.38/mo.**

3639-311 6-in. carbide with hardweld
\$79.95 | \$1.70/mo.**

3639-312 8-in. carbide with hardweld
\$92.95 | \$1.97/mo.**

3639-313 10-in. carbide with hardweld
\$114.95 | \$2.44/mo.**

ACE™ RUNNER

Utilizes a preformed, square steel bar with a tall, aggressive profile | Provides excellent control | Sold in pairs

6639-850 6-in. carbide
\$79.95 | \$1.70/mo.**

6639-799 8-in. carbide
\$89.95 | \$1.91/mo.**

SHAPER™

Offers more precise turning than conventional wearbars | 20% lighter than round wearbars | Sold in pairs

4639-949 4.5-in. carbide
\$84.95 | \$1.80/mo.**

4639-950 6-in. carbide
\$94.95 | \$2.02/mo.**

4639-951 9-in. carbide
\$114.95 | \$2.44/mo.**

'05-'16 ARCTIC CAT SADDLELESS SKI WEARBARS

NOTE: The accessory wearbars use a 4-bolt stud pattern. When using accessory wearbars on '05 and newer models with Saddleless Skis and a 3-bolt stud pattern, it will be necessary to drill another mounting hole in the ski.

DUAL WEARBARS (EACH)

STAGGERED

Features a single carbide runner and an offset hardweld runner | Lighter steering than a dual carbide runner | Reduces darting and plugging | Available with a standard (.312) or aggressive (.500) bar | Sold individually

2703-598 4-in. carbide (RH) 3-bolt (Standard)
\$59.95 | \$1.27/mo.**

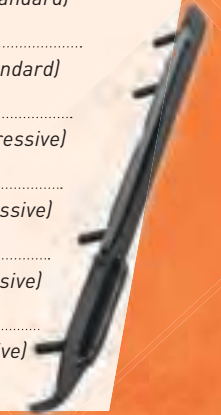

2703-599 4-in. carbide (LH) 3-bolt (Standard)
\$59.95 | \$1.27/mo.**

2603-988 4-in. carbide (RH) 3-bolt (Aggressive)
\$59.95 | \$1.27/mo.**

2603-989 4-in. carbide (LH) 3-bolt (Aggressive)
\$59.95 | \$1.27/mo.**

2603-930 4-in. carbide (RH) 4-bolt (Aggressive)
\$58.95 | \$1.25/mo.**

2603-931 4-in. carbide (LH) 4-bolt (Aggressive)
\$58.95 | \$1.25/mo.**

DOOLY™

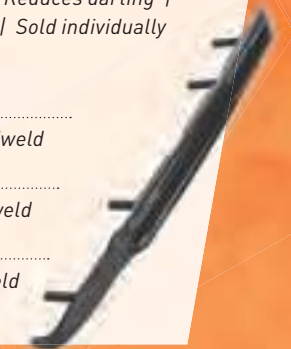

Great, all-trail performance | Reduces darting | Features two carbide runners | Sold individually

5639-879 Hardweld wearbar
\$29.95 | \$0.64/mo.**

3639-343 4-in. carbide with hardweld
\$58.95 | \$1.25/mo.**

3639-344 6-in. carbide with hardweld
\$72.95 | \$1.55/mo.**

3639-345 8-in. carbide with hardweld
\$94.95 | \$2.02/mo.**

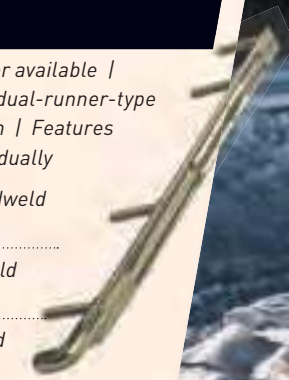

DEUCE™

The best-performing dual runner available | Reduces darting and eliminates dual-runner-type drag | Durable one-piece design | Features two carbide runners | Sold individually

5639-251 4.5-in. carbide with hardweld
\$64.95 | \$1.38/mo.**

5639-252 6-in. carbide with hardweld
\$74.95 | \$1.59/mo.**

5639-253 8-in. carbide with hardweld
\$99.95 | \$2.12/mo.**

GOLD DIGGER® TRACTION MASTER® (2-PLY) 60° CARBIDE, 5/16-IN. THREAD, 1-IN. HEAD

The industry-leading and best-selling trail stud | Outstanding penetration and durability on ice and hardpack from a 60° carbide tip | Support Plates sold separately

DIGGER (2-PLY) SUPPORT PLATES

Lightweight aluminum offers serious support | Added strength from crowned profile | 1.250-in. square, 1.375-in. round

NOTE: A REAR WHEEL KIT (PAGE 129) IS RECOMMENDED WHEN ADDING STUDS TO MODELS NOT EQUIPPED.

STUDS AND SUPPORT PLATES ARE AVAILABLE IN 90, 96, 102, 135, 144 AND 153 QUANTITIES. SEE DEALER FOR SPECIFIC PART NUMBERS AND APPLICATIONS.

BIG NUT

Heavy-duty, lightweight aluminum | Stronger and more supportive than standard lock nuts | Recommended when using studs 1.325 in. and longer

SIGNATURE SERIES STAINLESS STEEL (2-PLY) 60° CARBIDE, 5/16-IN. THREAD, 15/16-IN. HEAD

Woody's proven push-through stainless steel stud at a competitive price | Support Plates sold separately

DOUBLE DIGGER™ (2-PLY) SUPPORT PLATES

Unmatched support from durable aluminum

ARCTIC CAT TRACTION BY STUD BOY®

POWER POINT (2-PLY) TRACTION KITS

Includes Studs, Support Plates, Standard or Power Tower Support Nuts, Template, Drill and Track Marker

5639-103 ORANGE
\$17.95 | \$0.38/mo.**

TOUCH-UP PAINT

Retain a showroom finish while filling in scratches and chips | Available in colors to match most '05-'15 models | 1/2-oz. and 12-oz. bottles available

See dealer for specific part numbers and applications.

FITS ALL MODEL VARIATIONS AND ENGINE PACKAGES UNLESS A SPECIFIC MODEL OR ENGINE DESIGNATION IS LISTED

Arctic Cat lubricants are designed and developed in conjunction with our engines and are proven through thousands of hours of dyno and field testing. They deliver the ultimate performance and protection for your Arctic Cat engine, and the peace of mind you expect.

2-CYCLE OILS

C-TEC2 SYNTHETIC OIL

The C-TEC2 revolutionary clean-burning engine technology demands an entirely unique oil formulation. This lubrication system effectively delivers oil where it is required — as a result using significantly less oil compared with traditional 2-cycle engines. This technology requires a unique viscosity and blend of additives and base stocks. After several years of intense testing, numerous formulations, thousands of dyno hours and hundreds of thousands of field test miles, we landed on this unique oil technology.

The ONLY oil recommended for the C-TEC2 engine, but approved for ALL Arctic Cat 2-cycle engines | Reduction in recoil pull-effort during cold weather starting | Convenient C-TEC2 oil packaging provides easier pourability and less waste | Fully synthetic formulation provides ultimate engine protection | Detergent additives maximize Arctic Power Valve™ and engine cleanliness | Smokeless formulation burns extremely clean with a fresher scent

6639-520 48 oz. | 6639-521 2.5 gallons

APV™ SYNTHETIC OIL

Outstanding performance for all non-C-TEC2 Arctic Cat 2-cycle engines | Protects against engine wear with excellent lubricity | Provides excellent Arctic Power Valve cleanliness | Smokeless formulation burns clean | Helps prevent piston scuffing, varnish formation and deposit buildup

4639-349 Quart | 5639-469 Gallon | 4639-347 2.5 gallons

FORMULA 50

Recommended for non-Arctic Power Valve 2-cycle engines | Performs well over a wide range of operating temperatures | Minimizes engine wear | Prevents rust/deposit formation

5639-475 Quart | 5639-476 Gallon | 5639-477 2.5 gallons

FITS ALL MODEL VARIATIONS AND ENGINE PACKAGES UNLESS A SPECIFIC MODEL OR ENGINE DESIGNATION IS LISTED

4-CYCLE OILS

Arctic Cat synthetic C-TEC4 engine oil is purpose-built and proven for Arctic Cat 4-cycle snowmobile engines, and is the ONLY oil recommended by Arctic Cat engineering.

The unique synthetic formulation of C-TEC4 allows your engine to deliver optimum performance and provides the ideal viscosity for easy cold weather starting and protection.

C-TEC4 SYNTHETIC OIL

Provides superior performance in ALL operating conditions including in the extreme cold | Synthetic base stocks offer high lubricity that protects engine from wear and scuffing | Exclusive formulation includes additives that help prevent deposit formations, ring sticking and engine wear

For use in ALL Arctic Cat 4-cycle snowmobiles including turbo engines

6639-524 Quart | 6639-525 Gallon

Synthetic Oil Change Kit for the 1100cc Twin Engine | Includes one gallon of synthetic C-TEC4 oil, oil filter, o-ring, washer and disposable funnel 6639-528

Synthetic Oil Change Kit for the 1049cc Triple Engine | Includes one gallon of synthetic C-TEC4 oil, oil filter, gaskets and disposable funnel 6639-529

Synthetic Oil Change Kit for the 700CC Twin Engine / Includes one gallon of synthetic C-TEC4 oil, oil filter and disposable funnel 7639-042

SYNTHETIC CHAIN LUBE

Designed for Arctic Cat chain-driven snowmobiles | Synthetic formulation helps protect against wear at extreme temperatures | Inhibits rust and corrosion during periods of non-use or extended storage

5639-038 8 oz. | 6639-539 15 oz. | 6639-117 2.5 gallons

ARCTIC CAT CHAIN LUBE

Maximizes performance and reduces friction | Coats sprockets and chain rollers | Prevents rust, wear and corrosion | Extends chaincase component life | Protects during periods of non-use

4639-363 8 oz. | 6639-538 15 oz. | 1639-247 2.5 gallons

SYNTHETIC SHOCK OILS

Superior performance under extreme racing conditions | Inhibits fading, reduces wear and protects against corrosion

4639-367 Light Weight – quart
4639-369 Medium-Light Weight – quart
4639-368 Medium Weight – quart

SYNTHETIC ACT GEARCASE FLUID

Specially formulated for the ACT drive system | Low-shear formulation offers exceptional lubrication at low temps | Protects against wear and corrosion in ACT drive systems with reverse

4639-361 3 oz. (Non-reverse) | 4639-628 12 oz. (Reverse)
5639-219 15 oz. (ACT Acer Reverse) | 7639-080 27.1 oz. | 5639-632 Gallon

SEMI-SYNTHETIC SHOCK OIL

Engineered with a high viscosity index (VI) formulation | Provides superior, consistent performance in severe operating and racing conditions | Protects against wear, foaming, oxidation and corrosion

5639-530 Quart

ACT™ DRIVE FLUSH FLUID

Always use while flushing ACT Gearcase Fluid

4639-333 6 oz. | 5639-847 Gallon

ARCTIC CAT SHOCK OIL

Lends consistent performance to floating piston gas shocks | Improves ride quality under demanding conditions

4639-366 Quart

ARCTIC CAT ANTIFREEZE — 60/40 EXTENDED LIFE

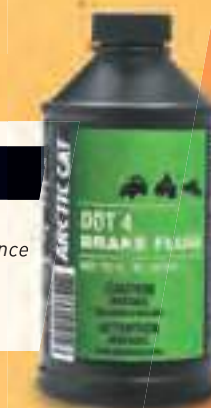

Protects against freezing to -62°F | Extended life has 2.5 year service life | Premixed and ready to pour

6639-916 Gallon

DOT 4 BRAKE FLUID

Premium fluid designed with corrosion and oxidation inhibitors | Optimizes brake performance if moisture is introduced into the brake system

5639-848 12 oz.

ENGINE STORAGE PRESERVER

Protects internal engine parts during storage | Aids in corrosion prevention

0436-888 12 oz.

FUEL INJECTOR AND CARBURETOR CLEANER

Provides peak performance | Cleans debris from vital fuel system/injectors | Greatly helps avoid repairs

0436-904 12 oz.

CAT CLEANER

Removes oil, grease and grime from vinyl, metal and paint | Sprays on and wipes off quickly | Won't alter finishes

4639-371 22 oz.

FUEL DE-ICER

Prevents system failure at the coldest of temps | Safe on internal parts | Water-absorbing isopropyl blend

0436-906 12 oz.

FUEL STABILIZER

Prevents fuel breakdown, jet clogging and corrosion | Suggested for use in stored sleds

0436-907 8 oz.

ARCTIC CAT ALL-TEMP GREASE

Increases cold-temp bearing, gear and pivot point performance | Quality Lithium 12-Hydroxy Stearate formula

4639-365 14.1-oz. tube

SPRAY AND RINSE CLEANER

Scrub-free cleanser eliminates grease and dirt

5639-872 24 oz. | 5639-789 Gallon

INSTANT DETAILER

Polishes and protects | Showroom-quality shine | Resists finger markings | Greaseless finish

5639-849 16 oz.

ACCESSORIES

BATTERY CHARGERS

BELTS

Custom fit to match each Arctic Cat sled and specific use | Better contact with clutch surface and faster acceleration from double cogs | Increased belt life by running 15° cooler than aftermarket belts | Reinforced with Aramax® aramid fibers for huge strength and durability | Increased power transmission and less slip from aramid-fiber rubber compounds

Kevlar drive belts available for F, M, ZR and XF models, which: Dramatically extend belt life | Sustain belt length better than steel cords | NOTE: Proper break-in period required

PREMIUM ARCTIC CAT "EXTENDED-LIFE" ORIGINAL EQUIPMENT REPLACEMENT BELTS

Don't settle for anything less than a drive belt built specifically for your sled. Proven through extensive lab and field testing, original equipment Arctic Cat replacement belts are precision-engineered for each Arctic Cat snowmobile.

CUSTOM-ENGINEERED FIT

While non-OEM aftermarket belts offer "one construction fits all," Arctic Cat Research & Development custom-engineers each genuine Arctic Cat belt to match the specific performance characteristics of your sled. This produces the best combination of strength, durability and responsiveness for lower-horsepower, fan-cooled sleds all the way up to high-horsepower muscle sleds. Each one is built using only the finest materials, incorporating precision manufacturing techniques to meet exacting tolerances.

TOP & BOTTOM COGS

Arctic Cat original equipment belts are double cogged, so more of the belt contacts the clutch surfaces. This results in faster acceleration, maximum efficiency and superb overall performance. Double-cog design provides structure while adding surface area for greater cooling and longer life. In fact, this belt runs up to 15° cooler than flat-top aftermarket belts.

ARAMAX HIGH-MODULUS (LOW-STRETCH) ARAMID-FIBER TENSILE MEMBER

The Aramax inner cord provides incredible strength and durability for high-horsepower, high-performance sleds. In addition, each belt is reinforced with top-grade, high-flexibility, shock-resistant Aramax aramid-fiber cords, and chemically treated for maximum power transmission and length stability.

HIGH-PERFORMANCE PREMIUM COMPOUNDS

Arctic Cat's OEM belts incorporate advanced "premium" compound materials that ensure optimum belt performance under all riding conditions. The advanced aramid-fiber-loaded rubber compound resists wear and delivers consistent power while minimizing slippage over a broad range of operating temperatures. The thicker, highly flexible design increases grip to clutch surfaces for increased power transmission.

ARCTIC CAT KEVLAR DRIVE BELTS

These ultimate-performance Arctic Cat Kevlar drive belts are custom-engineered for F, M, ZR and XF models. Extended-life belts feature top- and bottom-molded cog construction and high-performance compounds. Inside, the Kevlar cord provides increased belt life and sustains belt length better than steel cords. Please note that proper belt "break-in" is required.

Your Cat Care™ Program by CornerStone Extended Service Plan provides you with comprehensive coverage against expensive and unexpected breakdowns.

Following are some of the benefits you can expect:

- No mileage limitations
- Towing and rental reimbursement
- Transferability
- Dedicated claims adjusters and customer service representatives

We hope you safely enjoy your Arctic Cat product in the years to come, knowing a Cat Care service representative is only a phone call away.

WOODY'S LIMITED WARRANTY

International Engineering & Manufacturing, Inc. warrants each product manufactured by it to be free from defects in material and workmanship under use for the purposes for which it is intended. The Company shall not be liable for damage or delays caused by defective materials or workmanship, is limited to the repair or replacement at its factory of defective article or part thereof, which may be returned to the factory. Transportation charges, prepaid within one (1) year after delivery to the original purchaser. Proof of purchase is also required. The Company shall be the sole judge of the workmanship and of any defect in the article or part returned. No claims for charges incurred in the removal, disassembly or reinstallation of such article shall be allowed. Product manufactured for consumer use on snowmobiles is designed for snow or ice only; use on any other surface voids warranty.

The Warranty shall not cover any article which has been misused or subjected to damage by accident or any article which has been altered outside the Company's factory. The Warranty for studs is void unless the studs are installed with Woody's

installation tools, support plates and lock nuts, according to the recommendations set forth in Woody's instructions and Template Particles. This Warranty does not cover lending, chipping, flaking or curdled gel breakdowns or gel loss from stud wear; stud replacement labor or shipping.

The Company shall, in no event, be liable for consequential damage or contingent liability arising out of any total or partial failure to function of any article manufactured by it or of any equipment on or in which it is used. Failure of a user to give notice to claim as to defect claimed under the provisions of the Warranty within one (1) year after delivery to original user, such claim shall constitute a waiver by consumer of all claims with respect to goods and equipment. No express, implied, or statutory warranty other than that herein set forth is made or authorized to be made by the Company. All returned warranties will not be accepted without a return authorization number.

WOODY'S MANUFACTURER WARRANTY RETURNS

Call our customer service department for a Return Authorization Number. This number must be visible on the outside of the box. The product must be inspected by a Woody's technician to determine if the product is defective due to material, quality of workmanship before a final

warranty determination is made. Proof of purchase is required. All returns to the manufacturer are for exchange only.

STUD BOY LIMITED WARRANTY

Liberty Products, Inc. warrants each product manufactured by it to be free of defects in workmanship and material while used for the purpose for which it is designed. Liberty Products, Inc. shall not be liable for damages or delays as a result of defects caused by defective workmanship or materials. Warranty is limited to the repair or replacement of Liberty Products of any defective part or product, within one (1) year of the delivery to the original purchaser. Proof of purchase must accompany the product returned (freight prepaid). Liberty Products, Inc. shall be the sole judge of any defect, which might be claimed as for the returned product. No other charges may be claimed in conjunction with the removal, reinstallation of such products. These products are designed and

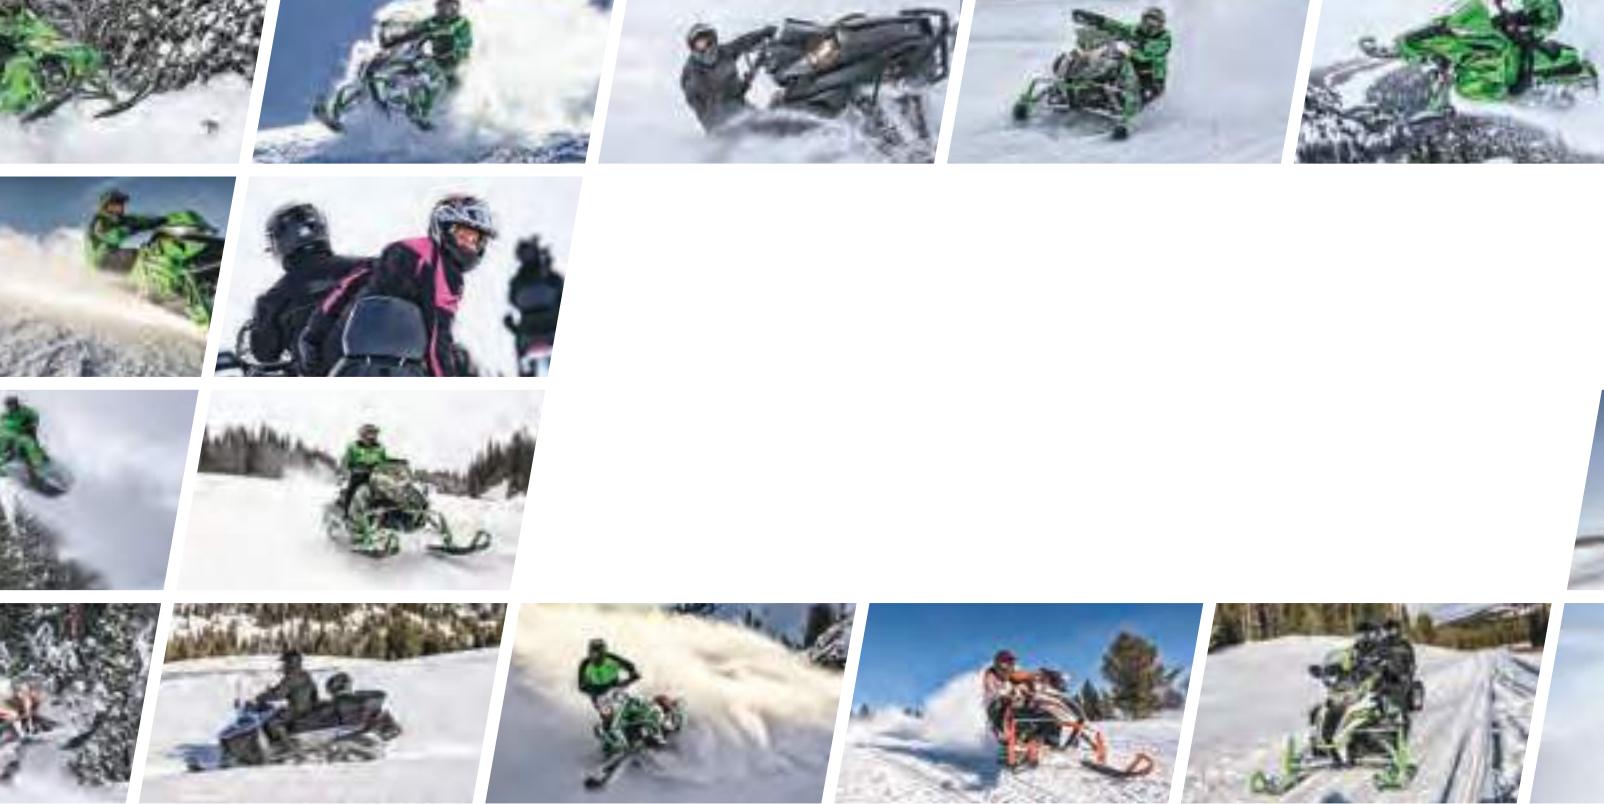

manufactured for use on snowmobiles as snow and for only use on other surfaces voids warranty. Warranty will benefit if product has been misused, neglected, damaged or modified outside of Liberty Products, Inc. Does not cover lending, chipping, flaking or curdled breakdowns or loss from wear. Liberty Products, Inc. will not be liable for consequential damage or contingent liability arising from any total or partial failure to function of any product manufactured by it or any equipment on or in which it is used. No other warranty of any type is intended or implied or will be authorized to be made by Liberty Products, Inc.

Get approval in minutes for the things you want. Ask your dealer for an application!

Snowmobiling is a serious fun. Be sure to read and understand your owner's manual and please pay special attention to the safety instructions. Arctic Cat Inc. order say and encourages the safe use of all snowmobiles. Be careful, you can get hurt. Wear a helmet and don't drink and ride. Be aware of natural hazards you may encounter, allow yourself plenty of time to safely stop your snowmobile under all conditions, and maintain your equipment. Your safety is in your hands, so take care. All scores depicted or described in this brochure were performed by professional riders under carefully controlled conditions. Leave the fancy riding to the pros; they practice for years and train very hard to make it look easy. Never attempt to duplicate these maneuvers or encourage others to do so. We care about your safety and enjoyment of the sport. All materials and specifications are subject to change without notice.

** Consumer purchasing a new Arctic Cat snowmobile have the option to install any of the 2016 Arctic Cat accessories in this catalog into the purchase price and will save the retail financing protection offered via the new Arctic Cat snowmobile at time of purchase. See dealer for details. Financing programs are offered by FreedomRoad Financial or Sheffield Financial, a Division of Branch Banking and Trust Company (Member FDIC). Subject to credit approval. Approval, and any rates and terms provided, are based on creditworthiness. Other financing offers are available. Consumers using Sheffield Financial will be charged a \$50 consumer document fee. See your local dealer for details. Rate determined is based on maximum borrower risk score of 640 and debt-to-income ratio of 45% or less. Minimum Annual Financed \$100. Maximum Annual Financed \$69,950. Other qualifications and restrictions may apply. An origination fee of \$50 will be added to the amount financed. Financing promotions and where prohibited. Offer effective on eligible Arctic Cat snowmobile accessories financed with a qualifying purchase on all new and unused 2011-2016 Arctic Cat Snowmobiles including racing, rental and special service units purchased from a participating U.S. Arctic Cat Dealer between 2/1/2016 and 2/1/2016. Offer subject to change without notice.
